

Universal Inline Conveyor

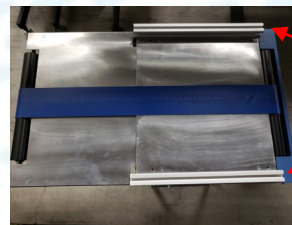

The **OTI UC14 Universal Inline Conveyor** is designed to position inline with most any production line.

Use it inline as an autoloader for the OTI HF14 and BOSS 14 feeders or as a discharge conveyor for other applications. The unique design has a low profile end roller that can allow products to waterfall onto other conveyors while retaining a tight shingle (as an autoloader) or can be positioned end to end and used as a take-away conveyor.

Features

- Height adjustable 30-38"
- Heavy-duty construction for years of service
- Left to Right or Right to Left operation
- Ease of setup and operation maximizes uptime
- Operator control station can be located on either side of the machine
- Available with a 3" or 11" wide Belt

Optional Rail Mount kit
